ATTENTION:

SUBJECT Employees That Do Not Receive a Step Pay Increase June 30, 1965

The attachment lists employees who will not receive a step increase on June 30, 1965.

All employees in the attachment were technically eligible for a salary increase and have been employed long enough to be considered.

Reasons that employees are not scheduled to receive an increase are listed below. Each employee in the attachment falls within one or more of the four categories listed.

P - Satisfactory performance has not been sustained for a long enough period to warrant an increase.

A - Excessive absence

NA - Non assignability. Employees who are difficult to assign or keep usefully employed at their present skill level. This category includes employees who are over-paid in relation to the job they are performing, have limited capacity for professional growth, and employees with emotional problems who must be assigned to low grade positions with no job tensions.

NE - Employees on 3 month appointments and expected to remain in temporary status

ATTENTION:

SUBJECT Addition to Non-Step List

J. P. Doolin, Field Inspector II, Operations Department - Grade 9 - Step 2 at \$7,560. was inadvertently omitted from the list of employees not receiving a step at this time. Doolin is in the Engineering Department attached to the Washington Park Project. Poor attendance is the reason given in his evaluation sheet for not receiving a step - and all other performance factors are just fair with no "Goods" or "Outstandings".
